

HOOVER'S ARMY IS FILLING UP

2,605,063 Families Have
Enlisted to Aid Food
Administration.

Food Pledge Week is going to be a tremendous success in the conservation program.

This was the feeling of the Food Administration last night when it announced that, at the end of the first two days' campaign to enroll American families on pledge cards calling for conservation, no less than 2,605,063 families have enlisted.

The minimum goal of the campaign is 10,000,000 families, and with four days yet to go the Food Administration is confident the number will be reached. If not passed, of the 2,605,063 cards signed to date, 864,695 were signed yesterday and Sunday, although the report is not complete for yesterday's campaign.

Maine leads all the States thus far, with 38,340 families enrolled to help save the nation's food. Indiana is second with 35,123, and Iowa third with 30,800. New York City has enlisted more families than most of the States, showing 638 cards. Probably the most encouraging sign the campaign has developed comes from Louisiana. Food Pledge Campaigners there set out to enlist 200,000 families. The campaign was finished last night with 30,861 families pledged to "do their bit."

INDUSTRIAL BODY DISCUSSES HOUSING

The Committee on Industrial Interest of Isaac Gans is chairman of a meeting last night at the Board of Trade office and transacted considerable business. Among the topics suggested was one by George Linkins on Washington in the future. Commercially, Linkins gave a very fine outline of what was expected of Washington in the future, and he was ably seconded by Casley, president of the Old Dutch Market. The chairman brought up the housing of people coming to Washington and the night school question.

After a lengthy meeting they adjourned until Tuesday evening of next week when these questions will be given final consideration.

LAST WEEK BROUGHT \$400 TO SWEETS FUND

One of the most successful weeks in the campaign of the Adrien de Lafayette chocolate fund was the week ended last when the proceeds for the week totaled over \$400 from contributions at Keith's Theater.

The young ladies who are aiding the fund in getting contributions have opened a booth at the Union Station and travelers will be given a chance to help "Sweeten the Road to Berlin."

Plans for a tag day on November 3 have been completed. Maj. Pullman has issued a permit, and weather permitting, the parade will begin in an effort to send a ton of chocolate by the end of the year.

Iron Is Greatest of All Strength Builders, Says Doctor

A Secret of the Great Endurance and Powers of Athletes.

Ordinary Nuxated Iron Will Make
Delicate, Nervous, Run-down People
100 Per Cent Stronger in Two
Weeks' Time in Many Cases.

New York, N. Y.—Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. E. Sauer, a Boston Physician who has studied widely both in this country and in Great European Medical Institutions when, as a matter of fact, the food they eat. But people often fail to get the strength out of the food because they do not know how to eat. Next time you eat, try to eat as if you were a champion athlete. See how long you can work of how far you can walk without becoming tired. Next time you eat, try to eat as if you were a champion athlete. See how long you can work of how far you can walk without becoming tired. Next time you eat, try to eat as if you were a champion athlete. See how long you can work of how far you can walk without becoming tired.

NOTE—Nuxated Iron recommended by Dr. E. Sauer, is one of the newer organic iron preparations. Unlike the old inorganic iron preparations, it is easily assimilated, does not burn the stomach, does not cause constipation, and does not cause the usual side effects of iron. It is a pure, natural, and powerful remedy in nearly all forms of indigestion, as you owe it to yourself to try it. The manufacturers have such great confidence in Nuxated Iron that they offer to refund \$10.00 to any charitable institution if they find that any man or woman under 60 who lacks iron and increases their strength 100 per cent or over in four weeks' time provided they use no other medicine. They also offer to refund your money if it does not result in double your strength and endurance in ten days' time. It is dispensed in this city at the O'Donnell's drug store, People's drug store, and all other drug stores.—Ad.
